Eat Right

Food, Nutrition and Health Tips from the Academy of Nutrition and Dietetics

Smart Snacking Tips for Kids

Snacks can play an important role in meeting kids' nutrient needs. Choosing a variety of foods from all of the food groups will give them the energy they need between meals.

It helps to plan and portion out snacks in advance. Kids will usually only need 2 or 3 snacks daily, and these should be provided at least one to two hours before meals.

It is recommended that snacks (and meals) be eaten in an area without distractions. So avoid snacking while watching TV or when using other electronic devices.

Better yet, let the kids help prepare the healthy snacks.

Here are a few easy, tasty (and healthy) snacks to help you get started.
Adults may need to help with some of these.

- 1. Parfait:** Layer vanilla or plain low-fat yogurt with fruit and dried cereal.
- 2. Toast a whole grain waffle** and top with low-fat yogurt and sliced fruit or smooth nut butter.
- 3. Blend low-fat milk**, frozen strawberries and a banana for thirty seconds for a delicious smoothie.
- 4. Sandwich cut-outs:** Make a sandwich on whole grain bread. Cut out your favorite shape using a big cookie cutter. Eat the fun shape and the edges, too!
- 5. Mini-pizza:** Toast a whole wheat English muffin, drizzle with pizza sauce and sprinkle with low-fat mozzarella cheese.

- 6. Frozen treats:** Mix equal amounts of fat-free plain or flavored yogurt with 100% fruit juice, then pour into paper cups and freeze for a tasty treat.
 - 7. Quesadilla:** Sprinkle shredded cheese over a corn or whole wheat tortilla; fold in half and microwave for twenty seconds. Top with salsa. **Spread hummus** on a tortilla. Top with a slice of turkey or ham, low-fat cheese and lettuce.
 - 9. Then roll it up.**
- Stuff a whole-grain pita pocket** with ricotta cheese and Granny Smith apple slices. Add a dash of cinnamon.

10. Microwave a cup of tomato or vegetable soup and enjoy with whole grain crackers.

11. Make a mini-sandwich with tuna or egg salad on a dinner roll.

12. Microwave a small baked potato. Top with reduced-fat cheddar cheese and salsa.

13. Spread celery sticks with smooth nut butter or low-fat cream cheese. Top with raisins. Enjoy your “ants on a log.”

14. Dip slices of fruit or whole-grain graham crackers into low-fat vanilla pudding or yogurt.

15. Inside-out sandwich: Spread mustard on a slice of deli turkey. Wrap around a sesame breadstick.

16. Rocky road: Smear low-fat chocolate pudding on a whole grain graham cracker, then top with a marshmallow.

17. Sprinkle cinnamon on unsweetened applesauce and enjoy with a whole grain graham cracker for a taste similar to apple pie.

18. Make your own fruit roll-up by pureeing fruit and either baking it in the oven or by using a dehydrator.

19. Bake homemade chewy granola bars using whole-grain oats and dried fruit.

20. Whip up mini-muffins using healthy ingredients, like whole grain flours and pureed fruit.

Portion sizes for kids are smaller than adults. However, certain foods due to their size pose a choking risk, especially for young children.

See below for a list of foods that may cause choking:

- Hot dogs and sausage links
- Meat chunks, unless finely chopped and combined
- Nuts, seeds and peanut butter
- Raw apple and pear slices
- Whole grapes
- Dried fruit
- Raw vegetables
- Whole kernels of corn
- Popcorn and chips
- Small candies and chewing gum

Ki sa ki Fliyord vèni?

Fliyord vèni se yon plak blanch yo pentire sou dan pitit yon a pou anpeche oubyen sispann caries.

Poukisa yo rekòmande Fliyord vèni?

Caries ka koze doulè ak enfeksyon ki pa bon pou sante timoun an jeneral e ka koze pwoblèm pou timoun nan manje, pale, jwe ak aprann. Fliyord vèni fè dan pi fò, anpeche caries yo vin pi gwo, et anpeche nouvo caries.

Èske Fliyord vèni danje?

Non. Fliyord vèni bon pou moun nenpot ki laj, li mim itilize sou ti bebe depi lè premye dan yo soti.

Kouman yo aplike fliyord vèni sou dan?

Yo pentire Fliyord vèni a sou dan ak yon bwòs. Anplwaye sante lekòl la fòme e kapab fè l' byen ak byen vit. Pa gen doulè ak vèni a et li pa goute move. Vèni a ka chanje koulè dan yo jis apwè li te aplike. Kèk kalite vèni ka fè dan an jaune, gin lòt ki fè dan an mwens briyan. Chanzman sa yo nòmal, e sa pral pase lè ptit ou a bwose dan li nan denmen.

Konben tan fliyord vèni fè?

Vèni a rete sou dan an jiskaske li bwose nan denmen, men fliyord la toujou ap travay pou plizyè mwa pou pwoteje dan an. Vèni a travay meyè si li te pentire sou dan 2 a 4 fwa pou ane a, daprè rekòmandasyon doktè swen medical ptit ou a.

KONSEY POU EDE POU APRE APLIKASYON VÈNI

Tann jis denmen pou ou bwose dan ptit ou. Apwè tretman an bay ptit ou manje ki mou sèlman pou rès jounen an. Evite bay ptit ou a manje ki cho, di, kolan apwè tretman fliyord vèni a. Manje ki di kolan ka wete vèni a.

SÈVIS MEDIKAL GRATIS

KLINIK SANTE POU LEKOL

Nou ofri tout sèvis medikal **GRATIS**

ENPÒTAN!
Anvan ou mete randevou,
tout elev dwe genyen yon
